

FOR

REGION 1 IN-SERVICE TRAINING

AT THE POINT ONE FACILITY IN THE SoCAL DESERT
31 OCTOBER - 4 NOVEMBER, 2022

Attendees will:

- receive training on HME and HME detection,
- see what the process looks like for several different types of HME,
- participate in challenging threat assessment-based scenarios.

It will be a week of hands-on and valuable training on:

- HME and advanced energetics materials
- HME mixes, synthesis
- HME detection and ID
- dynamic defeat against sensitive materials.

The training is intended to be interactive and registrants are encouraged to bring some basic response kit if possible. For those that cannot, training kit and energetic tools will be provided.
