This is a great chance to be part of a truly unique training event. Some try to copy Operation Red Rocks, there is nothing like being at the real thing; Great Weather, Great Food, and a training location that we can do live explosive shots, disruptor shots and training buildings that are clean and get us out of the weather if needed. All vendors and bomb techs are welcome to Op Red Rocks. Those vendors that have attended an Operation Red Rocks in the past know what a great event it is. The Event is Great because of the hard work of the Vendors. Thank You
